The application has been amended as follows:

On line 11 of claim 1, please insert --a-- in between "comprising" and "yieldably".

On line 22 of claim 1, please delete "load" and in its place insert --fluid--.

The following is an examiner's statement of reasons for allowance: The prior art made of record does not disclose or suggest a dispensing apparatus for dispensing fluids to a patient comprising "flow control means carried by said outer housing for controlling fluid flow from reservoirs toward said fluid delivery means, said flow control means being in communication with said outlets of said fluid reservoirs and being in communication with said fluid delivery means" in combination with the other limitations recited in claims 1, 10, and 19. The Examiner is interpreting "flow control means" to comprise casing portion (84), thumbwheel (88), flow control member (86), indicator drum (90), fluid connector (92), and mixing and dispensing means (94).

Conclusion
